

February 28, 2022

Dear Valued Customer,

**Flint Group announces global price increase**

At Flint we continue to focus on providing security of supply in a very volatile raw material market. In recent months Flint Group has continued to experience further significant cost increases for many of our key raw materials, packaging materials, energy and freight.

We continue to work closely with our raw material suppliers and do our utmost to minimize these cost increases while maintaining the focus on security of supply. However with the increases we continue to see in these input costs, Flint Group Narrow Web is announcing a price increase for all ink and coating products effective for deliveries on or after March 15, 2022 or when contracts permit.

These increases are necessary to ensure Flint Group is able to source the required raw materials, packaging and freight to serve our customers and markets.

We very much appreciate your business and your partnership with Flint Group. Please be assured of our best intentions and reach out to your account executive if you have any questions.

Sincerely,

Julian Cass  
Vice President North America  
Flint Group Narrow Web
